Amendments to the Claims

This listing of claims replaces all prior versions and listings of claims in the application.

Listing of Claims

1-77. Canceled

78. (New) A dietary supplement for inhibiting platelet aggregation, said supplement comprising effective amounts of a grape seed extract, a grape skin extract, and an enzyme, wherein said supplement comprises 3.3 percent or more of said grape seed extract by weight, wherein said grape seed extract and said grape skin extract each contain one or more flavonoids, and wherein said enzyme is selected from the group consisting of a fungal protease, an acid stable protease, and bromelain.

79. (New) The supplement of claim 78, wherein said supplement is in the form of a pill, powder, or tablet.

80. (New) The supplement of claim 78, wherein said supplement further comprises a bilberry extract.

81. (New) The supplement of claim 78, wherein said supplement further comprises a ginkgo biloba extract.

82. (New) The supplement of claim 78, wherein said supplement further comprises quercetin.

83. (New) The supplement of claim 78, wherein said supplement comprises about 24 percent or less of said enzyme by weight.

Attorney's Docket No.: 09143-005001

84. (New) The supplement of claim 78, wherein said supplement further comprises a ginkgo biloba extract, a bilberry extract, quercetin, a fungal protease, an acid stable protease, and bromelain.

85. (New) The supplement of claim 84, wherein said supplement comprises about 12 percent of said grape seed extract by weight, about 20 percent of said grape skin extract by weight, about 10 percent of said ginkgo biloba extract by weight, about 10 percent of said bilberry extract by weight, about 24 percent of said quercetin by weight, and about 24 percent of an enzyme blend by weight.

86. (New) The supplement of claim 84, wherein said supplement comprises about 3.30 percent of said grape seed extract by weight, about 67.77 percent of said grape skin extract by weight, about 9.71 percent of said ginkgo biloba extract by weight, about 7.32 percent of said bilberry extract by weight, about 7.32 percent of said quercetin by weight, and about 4.58 percent of an enzyme blend by weight.

87. (New) A dietary supplement for inhibiting platelet aggregation, said supplement comprising effective amounts of a grape seed extract, a grape skin extract, and an enzyme, wherein said supplement comprises 32 percent or more of said grape seed extract and said grape skin extract by weight, wherein said grape seed extract and said grape skin extract contain one or more flavonoids, and wherein said enzyme is selected from the group consisting of a fungal protease, an acid stable protease, and bromelain.

88. (New) The supplement of claim 87, wherein said supplement is in the form of a pill, powder, or tablet.

89. (New) The supplement of claim 87, wherein said supplement further comprises a bilberry extract.

90. (New) The supplement of claim 87, wherein said supplement further comprises a ginkgo biloba extract.

Attorney's Docket No.: 09143-005001

91. (New) The supplement of claim 87, wherein said supplement further comprises quercetin.
92. (New) The supplement of claim 87, wherein said supplement comprises about 24 percent or less of said enzyme by weight.
93. (New) The supplement of claim 87, wherein said supplement further comprises a ginkgo biloba extract, a bilberry extract, quercetin, a fungal protease, an acid stable protease, and bromelain.
94. (New) The supplement of claim 93, wherein said supplement comprises about 12 percent of said grape seed extract by weight, about 20 percent of said grape skin extract by weight, about 10 percent of said ginkgo biloba extract by weight, about 10 percent of said bilberry extract by weight, about 24 percent of said quercetin by weight, and about 24 percent of an enzyme blend by weight.
95. (New) The supplement of claim 93, wherein said supplement comprises about 3.30 percent of said grape seed extract by weight, about 67.77 percent of said grape skin extract by weight, about 9.71 percent of said ginkgo biloba extract by weight, about 7.32 percent of said bilberry extract by weight, about 7.32 percent of said quercetin by weight, and about 4.58 percent of an enzyme blend by weight.
96. (New) A method for inhibiting platelet aggregation in a mammal in need thereof, wherein said method comprises administering a supplement comprising effective amounts of a grape seed extract, a grape skin extract, and an enzyme, wherein said grape seed extract and said grape skin extract contain one or more flavonoids, wherein said enzyme is selected from the group consisting of a fungal protease, an acid stable protease, and bromelain, and wherein:
- (a) said supplement comprises 3.3 percent or more of said grape seed extract by weight,
 - or
 - (b) said supplement comprises 32 percent or more of said grape seed extract and said grape skin extract by weight.

Attorney's Docket No.: 09143-005001

97. (New) The method of claim 96, wherein said supplement is in the form of a pill, powder, or tablet.

98. (New) The method of claim 96, wherein said supplement further comprises a fungal protease, an acid stable protease, and bromelain.

99. (New) The method of claim 96, wherein said supplement further comprises a bilberry extract.

100. (New) The method of claim 96, wherein said supplement further comprises a ginkgo biloba extract.

101. (New) The method of claim 96, wherein said supplement further comprises quercetin.

102. (New) The method of claim 96, wherein said supplement comprises about 24 percent or less of said enzyme by weight.

103. (New) The method of claim 96, wherein said supplement further comprises a ginkgo biloba extract, a bilberry extract, quercetin, a fungal protease, an acid stable protease, and bromelain.

104. (New) The supplement of claim 103, wherein said supplement comprises about 12 percent of said grape seed extract by weight, about 20 percent of said grape skin extract by weight, about 10 percent of said ginkgo biloba extract by weight, about 10 percent of said bilberry extract by weight, about 24 percent of said quercetin by weight, and about 24 percent of an enzyme blend by weight.

105. (New) The supplement of claim 103, wherein said supplement comprises about 3.30 percent of said grape seed extract by weight, about 67.77 percent of said grape skin extract by weight, about 9.71 percent of said ginkgo biloba extract by weight, about 7.32 percent of said bilberry extract by weight, about 7.32 percent of said quercetin by weight, and about 4.58 percent of an enzyme blend by weight.
